SUMMARY

Creative and detail-oriented web developer with experience designing and developing responsive websites. Skilled in HTML, CSS, JavaScript, and modern web design principles, with a strong focus on accessibility and visual presentation. Adept at combining technical knowledge and artistic creativity to build engaging user experiences. Seeking opportunities to contribute to professional web development projects while continuing to expand technical expertise.

PROJECTS

Ultimate Gaming
HTML & CSS site

SPRING 2025

- Designed a 3 page website using HTML5 and CSS3.
- Created a responsive layout optimized for both mobile and desktop viewing.

- Implemented a cohesive theme through the use of CSS styling.
- Built an appealing, modern website promoting a fictional video game studio.

GhostInk
HTML, CSS, & JavaScript static site

WINTER - SPRING
2026

- Built the original 5 page site using HTML5, CSS3, and JavaScript.
- Rebuilt the site in Bootstrap 5 to improve responsiveness.
- Enhanced the home page with JavaScript, jQuery, and external APIs to improve the use experience.
- Added interactive UI elements such as tab panels.
- Created a complete fictional commission-platform for hiring artists.
